AUTHOR INDEX VOLUME 14 (1988)

(The issue number appears in parentheses before the page numbers.)

Aitchison, T.M. OBE, The database producer in the information chain (6) 319–327
Aiyepeku, W.O., *see* **A. Soyibo** (4) 243–251
Amadi, A.O., Viewdata in the office—user-fiendly page identification (*Brief Communication*) (1) 59– 61
Arunachalam, S. and K. Manorama, How good are Indian ecology journals? (*Brief Communcation*) (3) 175–179
Arunachalam, S. and U.N. Singh, Where do Israeli scientists publish? (4) 221–231
Azubuike, A.A., The computer as mask: a problem of inadequate human interaction examined with particular regard to online public access catalogues (5) 275–283

Bawden, D., *see* **R.G. Thorp** (1) 17– 24
Bottle, R.T. and C.E. Voudouris, A bibliometric critique of the EURISTOTE database (4) 205–220
Bottle, R.T., *see* **A.C. Gent** (5) 301–304
Brewer, R., *see* **C. Snow** (3) 181–187
Brookes, B.C., Bibliometrics at L.U.C. Diepenbeek (*Conference Report*) (1) 63– 64
Brookes, B.C., Sichel's inverse Gaussian–Poisson distribution: recent advances (*Brief Communications*) (4) 233–236
Butcher, D.R., *see* **J.E. Rowley** (6) 355–363

Cawkell, A.E., Megatrends, hot niches in the market, and *le défi japonais (Brief Communication)* (3) 171–173
Chaudhury, A.R. and M. Shukla, Design and development of the bibliographic database INDEL—using Micro-CDS/ISIS (3) 159–170
Chen, J., The natural structure of sientific knowledge: an attempt to map a knowledge structure (3) 131–139
Crawshaw, H.S., *see* **A.C. Gent** (5) 301–304
Cringean, J.K., G.A. Manson, P. Willett and G.A. Wilson, Efficiency of text scanning in bibliographic databases using microprocessor-based, multiprocessor networks (6) 335–345
Crookes, D., *see* **G. Philip** (2) 93– 98

Davies, J., The Singapore vision: an information-based economy (*Brief Communication*) (4) 237–242

Eckermann, R., *see* **L. Hildebrandt** (5) 293–300
Elliott, P., *CURRENT RESEARCH in library & information science*: the service (*Brief Communication*) (5) 311–314

Gash, S. and D.F. Reardon, Personal transferable skills for the modern information professional: a discussion paper (5) 285–292
Gent, A.C., R.T. Bottle and H.S. Crawshaw, Managers' reading habits in the electronics industry (*Brief Communication*) (5) 301–304
Gilchrist, A., Editorial (2) 67
Gilchrist, A., Editorial: Big Bang and Boesky (5) 255
Glänzel, W. and A. Schubert, Characteristic scores and scales in assessing citation impact (2) 123–127
Glänzel, W., *see* **R. Todorov** (1) 47– 56

Hartley, J., M. Trueman and A.J. Meadows, Readability and prestige in scientific journals (2) 69– 75
Hildebrandt, L., H. Langer and R. Eckermann, Use of COALDATA to help retrieve and estimate the physical properties of coals, coal liquids and coal chemicals (5) 293–300
Hulme, A.J. and T.D. Wilson, Professional education and subsequent careers in library/information work: a follow-up study of former students on the MA/MSc Information Studies (Social Sciences) course at the University of Sheffield (2) 109–117

Järvelin, K., A methodology for user charge estimation in numeric online databanks. Part I: A review of numeric data banks and charging principles (1) 3– 16
Järvelin, K., A methodology for user charge estimation in numeric online databanks. Part II (2) 77– 92
Joice, J.R., *see* **R.G. Thorp** (1) 17– 24
Judge, P.J., Guest Editorial: Questions of information policy (6) 317–318
Judge, P.J., Australian scholarly journals: a situation report (2) 119–122

Keleman, K.S., *see* **L.F. Lewis** (6) 347–354

Langer, H., *see* **L. Hildebrandt** (5) 293–300
Lewis, L.F. and K.S. Keleman, Issues in Group Decision Support System (GDSS) design (6) 347–354
Lin, S.C., Development of computer applications in Chinese information centers (4) 195–203
Lucarella, D., A document retrieval system based on nearest neighbour searching (1) 17– 24

Manorama, K., *see* **S. Arunachalam** (3) 175–179
Manson, G.A., *see* **J.K. Cringean** (6) 335–345
Meadows, A.J., *see* **J. Hartley** (2) 69– 75

Peer, W. van, Reading, culture and modern mass media (*Brief Communication*) (5) 305–309

North-Holland
Journal of Information Science 14 (1988) 371–372
